

Role Profile

<p>Role Title</p>	<p>Candidate Advanced Nurse Practitioner (cANP) in Gynaecology Hereditary Cancer</p>
<p>Purpose of the Role</p>	<p>The main purpose of the cANP post in Gynaecology Hereditary Cancer is to develop the job description and supporting documentation under the direction of the Health Care Provider’s Advanced Practice Stakeholder Governance Group, to enable the individual nurse to meet the NMBI Criteria for Registration as an Advanced Nurse Practitioner as set out in Advanced Practice (Nursing) Standards and Requirements (NMBI, 2017).</p> <p>The individual will undertake the academic preparation and develop the clinical and leadership skills, competencies and knowledge required to meet the criteria to be registered as a RANP with NMBI. The scope of the cANP role must reflect the incremental development of expertise and as such, the cANP cannot deliver care as an autonomous practitioner.</p> <p>The individual will complete and submit the necessary documentation for registration as an RANP with NMBI.</p> <p>The value of the nursing contribution as a distinct profession must be safeguarded and articulated in the development of new services led by advanced nurse practitioners, complementing rather than replacing current services delivered by doctors (NMBI 2017 p.9).</p> <p>The overall purpose of the post is to provide safe, timely, evidenced based nurse-led care to patients at an advanced nursing level. This involves undertaking and documenting a complete episode of patient care (assess, diagnose, plan, treat and discharge patients) according to collaboratively agreed protocols and scope of practice in the clinical setting; demonstrating advanced clinical and theoretical knowledge, critical thinking, clinical leadership and decision-making skills.</p> <p>The advanced practice role demonstrates a high degree of knowledge, skill and experience that is applied within the nurse-patient/client relationship to achieve optimal outcomes through critical analysis, problem solving and accurate decision-making (NMBI, 2017).</p> <p>Central to this is the provision of quality care, a safe environment and processes for patients by the use of evidence based clinical guidelines that address patient expectations, promote wellness and evaluate care given.</p>

	<p>The role will provide clinical leadership and professional scholarship in order to develop nursing practice and health policy at local, regional and national level.</p> <p>The role will contribute to nursing research to shape and advance nursing practice, education and health care policy at local, national and international levels.</p> <p>The successful candidate will work with St. James’s Hospital MDT and support the symptomatic Gynaecology Cancer service as appropriate and manage the Gynaecology Hereditary Cancer service and develop the role to:</p> <ul style="list-style-type: none"> • Improve patient experience and satisfaction • Promote health and wellbeing • Take a holistic approach to patient care • Improve the quality-of-service patients receive • Assess, diagnose, treat, discharge and evaluate patients autonomously as appropriate • Provide continuity of care • Provide evidence based, innovative care • Work effectively as part of the multi-disciplinary team in the Gynaecology Oncology department • Be actively involved in the continued evaluation of services through ongoing clinical audit and research • Identification and management of treatment related side effects • Support and empower patients to self-manage their own health needs • With the Gynaecology Oncology MDT, collaboratively agree and develop local policies, procedures, protocols and guidelines • Provide timely access to services • Organise, interpret and follow up on all investigations required as part of patient risk reducing and surveillance pathways, ensuring they are performed in a timely manner • Management of menopausal side effects • Establish Nurse led outpatient services, utilising telehealth and other ICT measures to facilitate more effective and efficient delivery of care • Provision of community-based clinics and group education sessions • Act as a communication link between the wider MDT in the management of patient issues, ensuring the appropriate services are referred to in a timely fashion • Liaise with the NCCP on progress and development of the service and support the Trinity St. James’s Cancer Institute
Department/Directorate	Gynaecology Oncology Department, SACC Directorate

Key Reports	Operationally: Assistant Director of Nursing Professionally: Assistant Director of Nursing and Director of Nursing Clinically: Supervising Consultant / Clinical Lead
Key Direct Reports	Staff Nurses, Support Staff, Student Nurses as appropriate on clinical matters only
Grade	Candidate Advanced Nurse Practitioner
Salary Scale	€70,025 - €79,081
Job Reference Number	001453
Enquiries To	Charlotte Stuart, Assistant Director of Nursing, Ambulatory Care, SACC Directorate; Phone: (01) 416 2096; Bleep: 126; Email: cstuart@stjames.ie
Closing Date	Sunday, 27 th July 2025

Key Duties and Responsibilities

The post holder's practice is based on developing a higher level of capability across the six domains of competences as defined by Bord Altranais agus Cnáimhseachais na hÉireann Advanced Practice (Nursing) Standards and Requirements (NMBI 2017).

The domains are:

- Professional Values and Conduct
- Clinical-Decision Making
- Knowledge and Cognitive Competences
- Communication and Interpersonal Competences
- Management and Team Competences
- Leadership and Professional Scholarship Competences

Domain 1: Professional Values and Conduct:

Standard 1

The cANP in Gynaecology Hereditary Cancer will be required to apply ethically sound solutions to complex issues related to individuals and populations by:

1. Demonstrating accountability and responsibility for professional practice as a lead healthcare professional in Gynaecology Hereditary Cancer.
2. Collaborating with their supervisor and local stakeholder group to scope the caseload and scope of practice for the Registered Advanced Nurse Practitioner (RANP) in Gynaecology Hereditary Cancer.
3. Collaborating with their supervisor and local stakeholder group to determine the inclusion criteria for the RANP in Gynaecology Hereditary Cancer.
4. Collaborating with their supervisor and local stakeholder group to determine the exclusion criteria for the RANP in Gynaecology Hereditary Cancer.

5. Articulating safe boundaries and engaging in timely referral and collaboration for those areas outside their scope of practice, experience, and competence by establishing, in collaboration with key stakeholders, referral pathways and locally agreed policies, procedures, protocols, and guidelines to support and guide the RANP in Gynaecology Hereditary Cancer service.
6. Demonstrating leadership by practising compassionately to facilitate, optimise, promote and support the health, comfort, quality of life and wellbeing of persons whose lives are affected by altered health, chronic disorders, disability, distress, or life-limiting conditions.
7. Selecting a professional practice model which provides their latitude to control their own practice, focusing on person centred care, interpersonal interactions, and the promotion of healing environments.
8. The chosen professional practice model for nursing will emphasise a caring therapeutic relationship between the cANP/RANP in Gynaecology Hereditary Cancer and their patients, recognising that cANPs/RANPs work in partnership with their multidisciplinary colleagues (Slatyer et. Al (2016).
9. Articulating and promoting the advanced practice nursing service in clinical, political and professional contexts {for example presenting key performance outcomes locally and nationally; contributing to the service's annual report; participating in local and national committees to ensure best practice as per the relevant national clinical and integrated care programme}.
10. Participate and cooperate with legislative and regulatory requirements in relation to Health and Safety as outlined in the Safety, Health and Welfare Act 2005 and the Hospital Safety Statement.

Domain 2: Clinical-Decision Making:

Standard 2

The cANP in Gynaecology Hereditary Cancer will enhance their advanced knowledge, skills, and abilities to engage in senior clinical decision-making by increasing their capability to:

1. Conduct a comprehensive holistic health assessment using evidenced based frameworks, policies, procedures, protocols, and guidelines to determine diagnoses and inform autonomous advanced nursing care.
2. Synthesise and interpret assessment information particularly history including prior treatment outcomes, physical findings and diagnostic data to identify normal, at risk and subnormal states of health.
3. Demonstrate timely use of diagnostic investigations/additional evidence-based advanced assessments to inform clinical-decision making.
4. Exhibit comprehensive knowledge of therapeutic interventions including pharmacological and non-pharmacological advanced nursing interventions, supported by evidence-based policies, procedures, protocols, and guidelines, relevant legislation, and relevant professional regulatory standards and requirements.

5. Initiate and implement health promotion activities and self-management plans in accordance with the wider public health agenda.
6. Discharge patients from the service as per an agreed supporting policy, procedure, protocols, guidelines, and referral pathways.

Domain 3: Knowledge and Cognitive Competences:

Standard 3

The cANP in Gynaecology Hereditary Cancer will actively contribute to the professional body of knowledge related to their area of advanced practice by enhancing their capability to:

1. Provide leadership in the translation of new knowledge to clinical practice (for example teaching sessions; journal clubs; case reviews; facilitating clinical supervision to other members of the team).
2. Educate others using an advanced expert knowledge base derived from clinical experience, on-going reflection, clinical supervision, and engagement in continuous professional development.
3. Demonstrate a vision for advanced practice nursing based on service need and a competent expert knowledge base that is developed through research, critical thinking, and experiential learning.
4. Demonstrate accountability in considering access, cost, and clinical effectiveness when planning, delivering, and evaluating care (for example key performance areas, key performance indicators, metrics).

Domain 4: Communication and Interpersonal Competences:

Standard 4

The cANP in Gynaecology Hereditary Cancer will negotiate and advocate with other health professionals to ensure the beliefs, rights and wishes of the person are respected by gaining increased competence and capability to:

1. Communicate effectively with the healthcare team through sharing of information in accordance with legal, professional, and regulatory requirements as per established referral pathways.
2. Demonstrate leadership in professional practice by using professional language (verbally and in writing) which represents the plan of care, which is developed in collaboration with the person and shared with the other members of the inter-professional team as per the organisation's policies, procedures, protocols, and guidelines.
3. Facilitate clinical supervision and mentorship through utilising one's expert knowledge and clinical competences.
4. Utilise information technology, in accordance with legislation and organisational policies, procedures, protocols and guidelines to record all aspects of advanced nursing care.

Domain 5: Management and Team Competences:

Standard 5

The cANP in Gynaecology Hereditary Cancer will manage risk to those who access the service through collaborative risk assessments and promotion of a safe environment by:

1. Promoting a culture of quality care.
2. Proactively seeking feedback from persons receiving care, families, and staff on their experiences and suggestions for improvement.
3. Implementing practice changes using negotiation and consensus building, in collaboration with the multidisciplinary team and persons receiving care.

Domain 6: Leadership and Professional Scholarship Competences:

Standard 6

The cANP in Gynaecology Hereditary Cancer will lead in multidisciplinary team planning for transitions across the continuum of care by enhancing their competence and capability to:

1. Demonstrate clinical leadership in the design and evaluation of services (for example findings from research, audit, metrics, new evidence).
2. Engaging in health policy development, implementation, and evaluation (for example key performance indicators from national clinical and integrated care programme/HSE national service plan/ local service need to influence and shape the future development and direction of advanced practice in Gynaecology Cancer).
3. Identifying gaps in the provision of care and services pertaining to their area of advanced practice and apply the best available evidence.
4. Leading in managing and implementing change.

Advanced Practice Performance Management and Evaluation

- Performance Indicators (PIs) are required to evaluate nursing interventions and implement initiatives to improve quality and quantity of the nursing care provided. They should have a clinical nursing focus as well as a breakdown of activity, including patients seen and treated. In addition, they identify areas of good practice that must be recognised and celebrated (HSE 2015).
- The Department of Health (2017) Framework for National Performance Indicators for Nursing and Midwifery provides a guiding framework for the development of Nursing and Midwifery PIs.
- The Department of Health (2017) Framework for National Performance Indicators for Nursing and Midwifery provides a guiding framework for the development of Nursing and Midwifery PIs.
- In collaboration with the Director of Nursing and Assistant Director of Nursing, the cANP in Gynaecology Hereditary Cancer will identify and develop Nursing PIs for their

area of practice, collect and collate data which will provide evidence of the impact and effectiveness of the interventions undertaken.

- The cANP will evaluate audit results and research findings to identify areas for quality improvement in collaboration with nursing management and multidisciplinary team colleagues (primary and secondary care).

Professional/Clinical

- The cANP in Gynaecology Hereditary Cancer will practice nursing according to:
 - The Code of Professional Conduct and Ethics for Registered Nurses and Registered Midwives (NMBI 2025);
 - Values for Nurses and Midwives in Ireland – Care, Compassion and Commitment (Department of Health 2016);
 - Advanced Practice Nursing Standards and Requirements (NMBI 2017);
 - National Health Policies and Procedures (latest versions);
 - HSE (2013, revised 2016) National Consent Policy;
 - Local policies, procedures, protocols and guidelines
 - Current legislation
 - Government of Ireland (2015) Assisted Decision-Making Capacity Act

Education and Training

The cANP in Gynaecology Hereditary Cancer will:

- Contribute to service development through appropriate continuous education, research initiatives, keeping up to date with nursing literature, recent nursing research, and new developments in nursing practice, education, and management.
- Provide support and advice to those engaging in continuous professional development in their area of advanced nursing.
- Ensure own mandatory learning and training is kept up to date.

Professional Practice Portfolio

- The cANP in Gynaecology Hereditary Cancer must develop a professional practice portfolio, incorporating evidence of learning from continuing professional development, clinical supervision, reflective practice, and review of their own scope of practice in accordance with regulatory requirements and service need.

Clinical Supervision

- The cANP in Gynaecology Hereditary Cancer engages in on-going clinical supervision as per a Memorandum of Understanding. The structure, process, and outcome of clinical supervision must be explicit.
- The cANP in Gynaecology Hereditary Cancer maintains a record of clinical supervision in their professional practice portfolio.

* The above Role Profile is not intended to be a comprehensive list of all duties involved and consequently the post holder may be required to perform other duties as appropriate to the post which may be assigned to them from time to time and to contribute to the development of the post while in office. This Role Profile will be subject to

review in the light of changing circumstances.

Academic/Professional Qualifications and/or relevant Experience

Professional Qualifications and Experience

Eligible applicants will be those who on the closing date for the competition must:

1. Be a Registered Nurse on the NMBI's Active Register or entitled to be so registered.

And

2. Be registered in the division of NMBI's Active Register for which the application is being made or in recognition of services which span several patient/client groups and/or registrations, provide evidence of validated competencies relevant to the context of practice.

Or

In recognition of services that span several patient/client groups and/or divisions(s) of the register, provide evidence of validated competencies relevant to the context of practice.

And

3. Have a broad base of clinical experience relevant to the advanced field of practice.

And

4. Be eligible to undertake a Master's Degree (or higher) in Nursing or a Master's Degree, which is relevant or applicable to the advanced field of practice they are working in. The Master's programme must be at Level 9 on the National Framework of Qualifications (Quality & Qualifications Ireland), or equivalent. Educational preparation must include at least three modular components pertaining to the relevant area of advanced practice, in addition to clinical practicum.

Or

5. Be currently undertaking a Master's Degree in Nursing (Advanced Practice Pathway) or be eligible to register to undertake additional Level 9 National Framework of Qualifications (Quality and Qualifications Ireland) specific modules of a Master's Degree in Nursing (Advanced Practice Pathway) within an agreed timeframe. Educational preparation must include at least three modular components pertaining to the relevant area of advanced practice, in addition to clinical practicum.

Or

6. Possess a Master's Degree (or higher) in Nursing or a Master's Degree which is relevant, or applicable, to the advanced field of practice. The Master's programme must be at Level 9 on the National Framework of Qualifications (Quality & Qualifications Ireland), or equivalent. Educational preparation must include at least three modular components pertaining to the relevant area of advanced practice, in addition to clinical practicum.

And

- b) Candidates must possess the requisite knowledge and ability including a high standard of suitability and clinical, professional and administrative capacity to properly discharge the functions of the role.

The Candidate Advanced Nurse Practitioner is required to have progressed to being eligible to be registered as an Advanced Nurse Practitioner with NMBI within 3 years of commencement in the post.
