

## Registrar in Gynaecology

**Department:** Gynaecology

Gynaecological care is provided for women attending other departments at SJH including other oncology services, haematology, hepatology, dermatology (including national epidermolysis service), MedEl and infectious diseases. Emergency gynaecological care is provided to the A&E Department. Emergency and surveillance obstetric care is provided for pregnant patients attending other departments and high risk obstetric patients requiring intensive (e.g. sepsis & extreme haemorrhage) or other high level multidisciplinary care.

**Salary Scale:**

Basic salary will be applied in line with approved HSE salary scales. Incremental credit will be awarded in accordance with the revised HSE framework for the application of increment credit

**Principal Duties and Responsibilities:**

The post holder will:

- Be responsible for assessment, diagnosis, planning, implementation and evaluation of treatment for patients according to professional standards and under the supervision of the Consultant
- Document all assessments, diagnoses, treatments, clinical notes, relevant contacts and summaries in accordance with department and professional standards
- Communicate results of assessments and recommendations to the patient and relevant others as appropriate
- Foster close working relationships with colleagues and other relevant professionals in maximising the patient's potential
- Participate in teams, communicating and working in collaboration with the patient and other team members as part of an integrated package of care
- Attend clinics and participate in relevant meetings, case conferences and ward rounds; followed by documentation of findings on each patient's chart; follow through with actions arising from the round
- In conjunction with the Supervising Consultant, contribute to the development and implementation of procedures, policies and guidelines while adhering to existing standards and protocols
- Maintain professional standards in relation to confidentiality, ethics and legislation
- Seek advice and assistance from the Consultant with any assigned cases or issues that prove to be beyond the scope of his / her professional competence in line with principles of best practice and clinical governance

### **Eligibility Criteria & Qualifications:**

#### Essential

- Must hold General Registration or Trainee Specialist Division Registration with the Irish Medical Council
- Relevant experience in order to discharge the functions of the role

#### Desirable

- Possession of a post-graduate qualification (eg MCEM, MRCS, MRCP), will be advantageous to the candidate, but is not a requirement for the post
- Candidates are expected to be ATLS or ACLS providers

### **Candidate Skills & Competencies:**

- Sufficient command of the English language to effectively carry out the duties and responsibilities of the role
- Sufficient clinical knowledge and evidence-based practice to carry out the duties and responsibilities of the role
- An ability to apply knowledge to evidence-based practice
- Leadership potential
- The ability to plan and deliver care in an effective and resourceful manner
- An ability to manage and develop self in a busy working environment
- The ability to effectively evaluate clinical information and make appropriate decisions
- A commitment to assuring high standards and strive for a patient centred service
- Work as part of a team and respect the views and suggestion of others
- Effective communication and interpersonal skills including the ability to collaborate with colleagues, families etc and good presentation skills
- Awareness and appreciation of the patient and the ability to empathise with and treat others with dignity and respect
- Flexibility and openness to change
- Ability to utilise supervision effectively
- A willingness to develop IT skills relevant to the role
